## I. INTRODUCTION

### ICMPD

The International Centre for Migration Policy Development (ICMPD) is an international organisation with 19 Member States and more than 250 staff members. Active in more than 90 countries worldwide, it takes a regional approach in its work to create efficient cooperation and partnerships along migration routes. Priority regions include Africa, Central and South Asia, Europe and the Middle East. Its three-pillar approach to migration management – structurally linking research, migration dialogues and capacity building – contributes to better migration policy development worldwide. The Vienna-based organisation has a mission in Brussels, a regional office in Malta and project offices in several countries. Founded in 1993, ICMPD holds a UN observer status.

### BOMCA 10 Programme

The Border Management Programme in Central Asia Phase 10 (BOMCA 10) is a long-lasting leading initiative funded by the European Union in the region. It is implemented by the consortium of border management institutions of the selected EU Member States and ICMPD led by the State Border Guard for the Republic of Latvia. The tenth phase with a total budget of EUR 21.65 million is the largest initiative in Central Asia. The current phase of the Programme was launched on April 1, 2021, its implementation period is 54 months.

**The main objective of BOMCA 10** is to enhance security, stability and sustainable growth in the region, while supporting cross-border cooperation and improving living conditions for people in the border areas of Central Asia. Thematically, BOMCA 10 covers four components: institutional development of border management agencies, improvement of detection capacities, trade facilitation, and improvement of cross-border cooperation. Geographically, the project covers all five countries of Central Asia. The current phase, built on the achievements and results of previous activities, will continue to work to support cross-border cooperation and improve the living conditions of people residing in the border regions of Central Asia, and will also facilitate legal trade flows across borders.

**The Call for Proposals** is released as part of the BOMCA 10 Component 4 aimed at *improvement of cross-border cooperation for better living conditions in border areas through local economic development, with a focus on human rights, gender equality and support to vulnerable groups*. Acknowledging **an important role played by non-profit civil society and non-governmental organisations (CSOs & NGOs) in supporting border communities in Central Asia**, BOMCA 10 will

provide grants for implementation of CSOs & NGOs actions in the border areas along with **the conditions specified in the below sections of these Guidelines for Applicants.**<sup>1</sup>

#### **General criteria**

Only eligible costs can be covered by a grant. The categories of costs that are eligible and ineligible are indicated below. The budget is both a cost estimate and an overall ceiling for eligible costs.

In principle, only costs related to activities implemented after the signature of the Grant Contract can be considered eligible. In exceptional and duly justified cases, costs incurred before contract signature may be considered eligible retroactively. In such cases, the Contracting Authority must be informed and has to formally accept, prior to the signature of the Grant Contract any retroactive costs.

Eligible costs are actual costs incurred by the Beneficiary(ies) which meet all the following criteria:

- a) they are incurred during the implementation of the Action. In particular:
  - i. Costs relating to services and works shall relate to activities performed during the implementation period. Costs relating to supplies shall relate to delivery and installation of items during the implementation period. Signature of a contract, placing of an order, or entering into any commitment for expenditure within the implementation period for future delivery of services, works or supplies after expiry of the implementation period do not meet this requirement;

---

<sup>6</sup> [https://ec.europa.eu/international-partnerships/comm-visibility-requirements\\_en](https://ec.europa.eu/international-partnerships/comm-visibility-requirements_en)

- ii. Costs incurred should be paid before the submission of the final reports. They may be paid afterwards, provided they are listed in the final report together with the estimated date of payment;
  - iii. An exception is made for costs relating to final reports, including expenditure verification, audit and final evaluation of the Action, which may be incurred after the implementation period of the Action;
  - iv. Procedures to award contracts may have been initiated and contracts may be concluded by the Beneficiary(ies) before the start of the implementation period of the Action, provided that the procurement rules of the Annex IV of the contract are respected.
- b) they are indicated in the overall budget for the Action;
- c) they are necessary for the implementation of the Action;
- d) they are identifiable and verifiable, in particular being recorded in the accounting records of the Beneficiary(ies) and determined according to the applicable accounting standards of the country where the Beneficiary(ies) is established and according to the usual cost accounting practices of the Beneficiary(ies);
- e) they comply with the requirements of applicable tax and social legislation;
- f) they are reasonable, justified and comply with the requirements of sound financial management, in particular regarding economy and efficiency.

#### **Eligible direct costs**

The following direct costs of the Beneficiary(ies) shall be eligible:

- a) the cost of staff assigned to the Action, corresponding to actual gross salaries including social security charges and other remuneration-related costs; salaries and costs shall not exceed those normally borne by the Beneficiary(ies), unless it is justified by showing that it is essential to carry out the Action;
- b) local travel (within Central Asia) and subsistence costs for staff and other persons taking part in the Action, provided they do not exceed those normally borne by the Beneficiary(ies) nor the rates published by the European Commission at the time of such missions;
- c) purchase costs for equipment and supplies (new or used) specifically for the purpose of the Action, provided that ownership is transferred<sup>7</sup> at the end of the Action when required. Maximum threshold shall be 30% of the direct eligible costs;
- d) costs of consumables;
- e) costs entailed by contracts awarded by the Beneficiary(ies) for the purposes of the Action;

### **Indirect costs**

The indirect costs for the Action are those eligible costs which may not be identified as specific costs directly linked to the implementation of the action and may not be booked to it directly according to the conditions of eligibility. However, they are incurred by the Beneficiary(ies) in connection with the eligible direct costs for the Action. They may not include ineligible costs or costs already declared under another costs item or heading of the budget of this Contract.

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7% of the estimated total eligible direct costs.

The applicant(s) may be asked to justify the percentage requested before the Grant Contract is signed. However, once the flat rate has been fixed in the special conditions of the grant contract, no supporting documents need to be provided.

- i) international travel outside of Central Asia;
- j) purchase of vehicles.

## **VI. EVALUATION AND SELECTION OF APPLICANTS**

During the administrative and eligibility check the following will be assessed:

- If the deadline has been met. Otherwise, the application will be automatically rejected.
- If the application satisfies all the criteria specified in this guidelines for applicants. This includes also an assessment of the eligibility of the action. If any of the requested information is missing or is incorrect, the application may be rejected on that sole basis and the application will not be evaluated further.
- If the application and all the relevant supporting documents have been submitted and if they are in proper format. Any missing supporting document or any incoherence between the declaration and the supporting documents may lead to the rejection of the application on that sole basis.

Following the administrative and eligibility check, assessment of financial and operational capacity of the applicants would be performed. During assessment it will be verified whether applicants:

- Have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding (this only applies to lead applicants);
- Have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This applies to lead applicants and co-applicants.

After the above-mentioned checks have been performed, the applications will be examined and evaluated by the evaluators appointed by the contracting authority.

The actions will be selected through a points system on the basis of the award criteria.

The award criteria evaluate the quality of the applications in relation to the objectives and priorities set forth in this document, and to award grants to projects which maximise the overall effectiveness of the call for proposals. They help to select applications which the contracting authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the call for proposals, quality, expected impact, sustainability and cost-effectiveness.

The evaluation grid is divided into Sections and subsections. Each subsection will be given a score:

<b>Section</b>	<b>Maximum Score</b>
<b>1. Relevance</b>	<b>20</b>
1.1 How relevant is the proposal to the objectives of the Call for Proposals and to the specific domains/areas or any other specific requirement stated in this guidelines? Are the expected results of the action aligned with the objectives and scope defined in these guidelines?	6
1.2 How relevant is the proposal to the particular needs and constraints of the target geographic area(s) and/or relevant domains (including complementarity with other development initiatives and avoidance of duplication)?	5
1.3 How clearly defined, and strategically chosen, are those involved (final beneficiaries, target groups)? Does the proposal demonstrate clear enough how the proposed Action will benefit the Central Asian border communities?	5
1.4 Does the proposal contain particular added-value elements (e.g. innovation, best practices, new approaches, new policy/institutional solutions, new operational approaches, new solutions for the environment, new solutions for vulnerable beneficiaries, etc.)?	4
<b>2. Design of the action</b>	<b>15</b>
2.1 How coherent is the design of the action? Does the proposal indicate the expected results to be achieved by the action? Does the intervention logic explain the rationale to achieve the expected results? Are the activities proposed appropriate, practical, and consistent with the envisaged outputs and outcome(s)?	7
2.2 Does the proposal include credible baseline, targets and sources of verification? If not, is a baseline study foreseen (and is the study budgeted appropriately in the proposal)?	5
2.3 Does the design reflect a robust analysis of the problems involved, and the capacities of the relevant stakeholders?	3
<b>3. Implementation approach</b>	<b>20</b>
3.1 Is the Work Plan for implementing the action clear and feasible? Is the timeline realistic?	8
3.2 Does the proposal include an effective and efficient monitoring system? Is there an evaluation planned (previous, during or/and at the end of the implementation)?	4
3.3 Is the co-applicant(s)'s level of involvement and participation in the action implementation satisfactory? In cases when there are no co-applicants, the adequacy of the approach to implement the action solely by the lead applicant is demonstrated/evident.	4
3.4 Is the framework of collaboration/coordination with relevant stakeholders (LIST) satisfactory?	4
<b>4. Sustainability of the action</b>	<b>15</b>
4.1 Is the action likely to have a tangible impact on its target groups?	7
4.2 Is the action likely to have multiplier effects, including scope for replication, extension, dissemination, capitalisation on experience and knowledge sharing?	4
4.3 Are the expected results of the proposed action sustainable? - Financially (e.g. financing of follow-up activities, sources of revenue for covering all future operating and maintenance costs).	4

- Institutionally (will structures allow the results of the action to be sustained at the end of the action? Will there be local 'ownership' of the results of the action?).	
- At policy level (where applicable) (what will be the structural impact of the action — e.g. improved legislation, codes of conduct, methods).	
- Environmentally (if applicable) (will the action have a negative/positive environmental impact?).	
<b>5. Budget and cost-effectiveness of the action</b>	<b>15</b>
5.1 Are the activities appropriately reflected in the budget?	5
5.2 Is the ratio between the estimated costs and the results satisfactory?	10
<b>Maximum total score</b>	<b>85</b>

If the total score of the evaluation is less than 55, the application will be rejected.

After the evaluation, a table will be drawn up listing the applications ranked according to their score.

The highest scoring applications will be provisionally selected until the available budget for this call for proposals is reached. In addition, a reserve list will be drawn up following the same criteria. This list will be used if more funds become available during the validity period of the reserve list.

ICMPD will inform the selected organisations of the decision and/or recommendations Evaluation Committee to revise and fine tune the proposals (Budget, M&E framework, other sections of the Application Form etc.), where applicable.

Upon implementation of the Evaluation Committee's recommendations, the proposal should be resubmitted to ICMPD.

Following the decision to award a grant, the beneficiary(ies) will be offered a contract. By signing the application form the applicants agree, if awarded a grant, to accept the contractual conditions of the grant contract. Signed financial identification form with bank details would be requested from the successful applicants prior to contract signature.
